Cash on hand,	1384 69
	<hr/>
	\$3426 27

Assets over indebtedness, Feb. 15, 1907, \$ 308 87

Last April the town was called on to pay the \$2000.00 note held by Mrs R W Smith, which it did, and hired \$2500 from the Woodsville Guaranty Savings Bank. \$1000.00 of this has since been paid, so the town has virtually paid

\$500.00 on the town debt during the past year.

Of the amount due from uncollected taxes, some allowance should be made for abatements.

TRUST FUNDS

The town has three legacies which it holds in trust. The Hutchins legacy of \$1500.00, consists of three bonds of \$500.00 each. The income of \$60.00 from these is used for the care of the Village and West Bath cemeteries, the balance if any is for the use of the town. The Simonds legacy of \$500.00, has an income of \$20.00 which is used to care for the Simonds lot. The balance is for town purposes. The Hibbard legacy of \$1000.00 has an income of \$40.00 which is for the care of the Hibbard lot. The balance to be used for school purposes.

Most respectfully submitted,

HARRY H HALL, Treasurer.

I have examined the above accounts and find them correctly cast and orders from selectmen for all disbursements.

JONAS MINOT, Auditor.

Bath N. H., Feb. 15, 1907.

LIBRARY REPORT

To the people of the Town of Bath the following report
of the Public Library is most respectfully submitted:

Last March 67 books were added from the 1905 appro-
priation, and 149 are about ready to be added from the 1906
appropriation, 122 miscellaneous books from the Tabard
Inn Library, 10 children's books from Little, Brown & Co.,
and 17 of the latest books from DeWolf, Fisk & Co., mak-
ing a total of 216 added the past year.

The patronage of the library has decreased in number
the past year, the appropriation being so small yearly we
can only add a few of the latest books after paying the run-

ning expenses of the library, so the people are losing interest in it.

We ask the town for a more liberal appropriation this year.

BESSIE FOSTER RANDALL, Librarian.

The attendance at school has been fairly good until the winter term, which has been interrupted by sickness somewhat. But we feel that the teachers have done their duty and that the scholars have made a good advancement for the year.

We would urge the parents to take more interest in these schools, visit them at least once in a term and see what the teachers and your children are doing, and let nothing but sickness keep your children at home.

UNION SCHOOL DISTRICT REPORT

To the inhabitants of the Union School District, the following report is respectfully submitted:—

During the past year 36 weeks of school have been maintained under the direction of two teachers.

At the close of the last school year we retained the services of Mr Dow as principal for the present year, knowing that his work would be better than a new teacher.

We find an increased interest of the scholars in their work, the discipline of the school improved and a gratifying amount of work done.

We consider that the district has been fortunate in being able to retain him for the past year.

Miss Agnes E Hall, of Monroe, N. H., a graduate of Tilton Seminary, and a teacher of one year's experience, was chosen to take charge of the primary department. Thorough, systematic and impartial, she has made the school a success.

We find that pupils demanding High school privileges must be examined in arithmetic, grammar, geography, history, physiology, reading, writing and spelling. An average of seventy per cent must be attained in all subjects. Therefore, trained and experienced teachers must be secured, if we desire to keep our school in the first rank, or prepare our scholars so they may be admitted to a certified High school without a year's preparation in some good grammar school out of town.

It is economy to make it worth the while for first class teachers to stay with us more than one year. You cannot keep up good schools without good teachers.

The first thing is to secure the best teachers possible, and the next, for the parents to have their children attend school regularly. Have them reap the benefit of each day of school, for the loss to them cannot be estimated. We wish that parents could, or would, fully realize this fact.

The teachers cannot do their best work, nor make their classes show the progress and thoroughness, that they could, if a constant attendance were possible. It is not only a loss to the absent scholar, but to the attending one, who has to be held back in his studies, while the teacher endeavors to keep the class together.

Many scholars are absent on account of sickness, but more on account of inclination. The parents are the only ones who can absolutely remedy this evil although a good truant officer would be a great help.

We would again urge every parent and friend of education to visit the schools. Help the teachers by showing them that you realize the great work that they are doing, in directing the studies of your children and in forming the character of each child to a greater or less extent. Help the scholars, by showing them that you are interested in their work and that you desire them to do their best work for the few years that they are in school to prepare them for the contact with the world, so soon to begin.

We have paid \$126.00 for tuition to other schools for High School studies during the year ending March 15, 1907.

We have had no High school classes during this school year. But we have a class of six who will pass from the eighth grade to a High school grade the next year.

Some provision for their further education must be provided.

The wood work, desks and other furniture of all the rooms on the first floor have been cleaned and varnished at a cost of \$31.00, during the summer vacation.

The out side of buildings need some slight repairs, and as the life of the paint is gone, the buildings should be thoroughly painted during the Summer. It is a matter of economy to do so. We would recommend that an appropriation be made for this purpose.
